

YMCA Lunenburg County *Child and Youth Programs*

Full Day Program:

A safe and fun filled environment for children ages 18 months to 5 years. All YMCA child and youth programs are fully licensed programs that promote the development of the “whole child” by providing a carefully planned, age appropriate, stimulating and child centered play environment.

Toddler Program: (18 months to 3 years old)
social development of the toddler. Your child will explore many things related to their development through play experiences.

Preschool Program: (3 and 4 years old)
The YMCA preschool program focuses on the social and emotional development of the child. Your child will be engaged with various materials that will stimulate all areas of development through their play.

Junior Program: (4 and 5 years old)
The YMCA junior program focuses on the cognitive and social development of the child. Your child will learn the pre-readiness skills that accommodate the broad range of a child's needs before entering into the school system.

School Age Program: (4 to 12 years old)
This program provides opportunities of interest consisting of science and math activities, outside activities, drama, reading, games, theme days and much more. A full-day program is available during school closures, in-service and storm days.

Off Site School Age Program: (4 to 12 years old)
The YMCA also offers after school care off site at Hebbville Academy. This program also provides opportunities of interest consisting of science and math activities, outside activities, drama, reading, games, theme days and much more. Care is provided on scheduled noon dismissal days.

Day Camp: (5 to 12 years old)
Fun-filled weeks in a safe nurturing environment providing social interaction with peers. YMCA programs consist of outside activities and adventures, field trips, science and math exploration, computers, theme days and much more.

YMCA Playing to Learn Curriculum

Our curriculum takes all areas of your child's development into account, including their physical, emotional, cognitive and social behavior. This curriculum is adapted to meet the specific needs of your child. This way, your child's interests help shape their learning experience.
